

Brassica Seed Locations for 2024 Harvest

The pinning map separates Brassica in two groups:

- 1) *Brassica oleracea* – examples include Broccoli, Cauliflower, Kale
- 2) *Brassica var species* – examples include Mustard, Mizuna, Tat Soi, Pak Choi

Isolation Distances

The following minimums must be maintained:

- Hybrid or OP Broccoli = 2.0 miles
- Hybrid or OP Broccoli to Cauliflower = 2.5 miles
- Hybrid or OP All other Brassicas = 2.0 miles

Pinning Priority

Pins will be date and time-stamped based on this form. This in no way establishes priority or a “first come” basis to an isolation.

Canal & Gate Number	Block Location (i.e. SE Corner)	Crossroads	<i>Check one only</i>		Pin number (to be determined by IVVGA)
			<i>Brassica oleracea</i> – ex: Broccoli, Cauliflower, Kale	<i>Brassica var species</i> – ex: Mustard, Mizuna, Tat Soi, Pak Choi
